Two palettes	150x80x120 cm 100x80x120 cm	Approx 300kg Approx 150kg
Engine	60x80x120 cm	Approx 150kg
Exhaust	3.20m long	

Option kit of series production chassis parts:

Three palettes	140x100x120 cm 165x90x130 cm 150x105x145 cm	Approx 70kg Approx 85kg Approx 60kg
----------------	---	---

3. AVAILABILITY OF KITS FOR CLIENTS

When the kit is being collected the clients can, if they wish, be given **technical information about assembling the kit** and the possible setups for the car.

To take advantage of this service please arrange a meeting at least two weeks in advance.

The assembly manual will be given on collection. All the future technical evolutions can be consulted on the net as well as the recommendations for revisions and their frequency.

4. CONFIGURATION OF THE ELECTRONIC PARAMETERS

4.1. Adaptation to a homologated fuel

The DS3 R3 kit is parameterized for the SP98 fuel unless the option is ordered before the delivery of the kit.

Fuel change:

- Send the calculator (in a good state and correctly packaged) to the Citroën Racing Boutique with an order form stating the mapping required.
- Loading time: 2 working days after reception of the calculator (plus adjustment carried out before hand).

Fuel consumption:

- Road 0.18L per km
- Stage 0.45L per km

HOMOLOGATED FUELS USABLE IN THE DS3 R3

- Elf Turbo Evo
- Sunoco Racing Fuel 102
- Wlodoil Wladogas 102 Rally
- Pan Panta Max
- Carless Hiperflo WRC gasoline 1

4.2. Upgraded data acquisition

This option increases the data acquisition memory from 8Mb (30 minutes recording) to 64Mb (4 hours recording). The Wintax data programme and the connection required for a PC are supplied in the specific DS3 R3 tool kit.

5. SETUPS OPTIONS

	DESIGNATION	REFERENCE	PRICE #
TARMAC SPRINGS	Front 50 N/mm	1E1464622A	€61.05
